## A personal invitation from Dr M Bowes – Congress Convenor

The past 2 years have been a challenge for all of us! During this time SADA has been leading the way in online education for our profession, providing diversity, inclusion, and value during these COVID years. I am happy to say the SADA Congress 2022 is back to an in-person experience, where the scientific committee has worked tirelessly to put a program together that addresses all that has changed in our world as well as in our profession.

The theme for 2022 “A Whole New World” addresses the positive changes that have happened in our dental world, we will explore the progress that has been made in improving the quality of treatment that our patients expect. As always the program is diverse, so there will be topics and content that will touch and inspire all of our community, in my opinion, the golden era of dentistry is yet to come!

Over the past 2 years we have missed human interaction so don't miss this opportunity to listen to some of the world's leaders in dentistry, not forgetting some of our local speakers of whom we can be so proud.

While education is always the focus of any SADA Congress, for the past 2 years we have all missed the value of the Trade Exhibition, this year it will be back with so many new ideas, products, and passion that will make it a year to remember!

Although the focus of “A Whole New World” will be education let's not forget the Cocktail Party, we all certainly need to celebrate the new era!

**See you all at SADA 2022.**
